

Local Intelligence.

SATURDAY.

Hon. C. C. Bean and his New York friends left this morning for the purpose of examining the various mining properties in which they are interested. They are many, and good ones.

James Stewart, who received quite severe bruises, a few days since, by being thrown over the dash-board of his buggy between the horses, is recovering, and will soon be able to attend to his stage duties.

The Land League meeting last evening which was addressed by Messrs. Macdonald, Baker, Hamilton, W. D. Bolan, Butler, Rush, Fitch and Bean, was a pleasant affair and a grand success and showed conclusively that the people of Prescott are in sympathy with the oppressed people of Ireland.

Hon. Rollins and Masterson made master speeches in the Council yesterday in opposition to clothing the Governor with the power to convene the Legislature at his will. Mr. Masterson used language that was shorn of any covering and that which could not be misconstrued.

The Washington Daily Star of January 29th, in referring to the appropriation bills, says:

"All of the regular appropriation bills have now been reported by the House Committee on Appropriations except three. These are the legislative, executive and judicial, the sundry civil and the general deficiency bill. The legislative bill will be reported next week."

From the above we should judge that ere this the appropriation has been made to carry our legislative session to the end of the sixty days, now established as the period it shall be convened.

MONDAY.

Mrs. J. H. Marion has been on a visit to Prescott, but returned to China Valley today, for the purpose of caring for her mother, Mrs. Banghart, who is ill, and who is gradually failing.

Hon. John McAfferty, a good and true legislator, who has been absent several days, returned from Pima county this morning, accompanied by Mr. Samuels, another member who has also been absent on leave.

TO BE RAFFLED FOR.—At the Cabinet Saloon we noticed a beautiful Afghan, which was made in Prescott, and left there to be raffled. It is a valuable robe and can be won for two dollars. Those who desire anything of the kind should not fail to take a chance. Go and see it and take two dollars worth.

The entertainment at the M. E. Church on Thursday evening promises to be an enjoyable affair. The literary portion is under the care of Hon. Donald Robb, the musical is cared for by Mrs. Jessie Stevens, and the gaudy by Mesdames Adams, Bean, Lewis, Bullfinch and others. Songs will be sung by Miss Stevens, Mrs. Blake, Mrs. Lewis and Mrs. Barker. Readings will be given by Marat Masterson, D. Robb and Frank Fitch, and Judge Haynes will deliver a short address.

Resolutions Adopted by the Prescott Land League Association.

WHEREAS, The present struggle of the Irish people to secure possession of the land which is their birthright and of which they have been unjustly deprived is a cause the most righteous that ever a people engaged in and one which should call forth the sympathy and support of every liberal minded man throughout the globe, and more especially the people of the American Republic; therefore be it

Resolved, That we, the people of Prescott, in mass meeting assembled, tender our heartfelt sympathy to the Irish people in their struggle against the system of tyranny and oppression, which for 700 years has brought misery, degradation, poverty and exile to their race; made one of the fairest spots of earth a scene of ruin and desolation and driven forth its people to seek a home and a livelihood among strangers. It is a system repugnant to every feeling of justice and humanity, and we hope that complete success will crown the efforts of the Irish people to destroy this monster of injustice and iniquity.

Resolved, That the action of the so-called Liberal Government of England, in its attempt to destroy the right of free speech and force on the Irish people the atrocious measure known as the "Coercion Bill," is a movement inspired by the spirit of tyranny and oppression; opposed to the liberal and progressive spirit of the age; unworthy the boasted freedom of the English Nation, and should call forth the condemnation of every man who believes in liberty, justice and fair play.

Resolved, That the motto of "The Land for the People," is a principle founded on eternal justice; a God given right, broad as humanity and dear to the heart of every freeman; and we hope the Irish people will not falter in their efforts for the freedom of their land and the civilization of their race, until that blot upon civilization, that relic of a barbarous age—landlordism—is swept from their country finally and forever.

Resolved, That these resolutions be published in the ARIZONA MINER and Arizona Democrat, and a copy be forwarded to the office of the "Irish World," New York city.

HOLDING THE FORT.

Our Friends and Our Enemies.

Since the convening of the Eleventh Legislative Assembly, speculation and opinions have been rife on our streets, in the residences of our citizens and public places of business, upon the Capital and other questions of public and important interest to Prescott and Northern Arizona, and many have been the surmises as to who was most likely to support, or at least see this session fairly dealt with. Our people have been charitable enough to count those as our friends, whom we have befriended, but alas, we are sorry to say, such we are informed is not the case, and that our Excellency Governor Fremont, whom we respect much for past services to his country, is square against us. We are loth to publish this statement, but "The Truth must be told," the "Heavens Fall," and we pen it with ink of crimson, and charge, that legislation, thus far, has been made a subject of barter between the man, of whom all others should prove recreant to his trust and honor—and the members of both branches of our Legislature. To have an act or bill approved to become a law, those interested must first pledge their support to send the Capital sailing to the sunny banks of the Santa Cruz, and add to the title of Tucson, Capital of Arizona. To say that our people, every one of them, are indignant at this high handed procedure, is using, indeed, an ill term. Fremont, the Explorer, General, Statesman and Governor, at the age of nearly three score and ten, to bend his knee to such schemes, is almost beyond the belief of man, but alas "it is true, too true."

For a series of years our northern counties have met with a reverse, extraordinary in severity on account of drought, paralyzing our farming, mining and various other industries to a great extent. During this time it has been quite different with our friends living to the South. Providence has dealt more kindly with them as regards the refreshing showers of moisture. The iron highway has traversed the entire breadth of the Territory, bringing to our neighbors a large emigration of industrious people, causing a revolution in affairs, equalled only by the days of '49 in California. New and extensive silver fields have been discovered, which have sent forth their millions to our neighboring States. All is well with Southern Arizona, and we are proud to note it. We think that a "Brotherly Love" should exist; that the people of the Southern counties should have a pride in seeing every section prosper; and instead of taking from us, try and give us more. These are our sentiments. They should be the sentiments of our honored Governor, in whom we have had the utmost confidence; and only hope that we now have been misinformed. We had reason to look to our natural allies from Maricopa for friendship and assistance, but the situation presents itself in a mystic form—a young and promising province from the rural district, through which meanders the bubbling Salinas, "should look well to his laurels" two years hence, or he may have a united North against him. Forewarned is to be forearmed. Beware young man, of the step you are taking, you may make your own goose. The iron messenger, the civilizer that builds up frontiers like magic, is fast approaching the northern treasure fields, and twenty months hence it is hard to say what the strength of the northern counties may be, therefore it behooves our friend to watch well the path that leads to victory. We predict adamantine strength for the northern counties at the next election.

The representatives of the people of Arizona in the present Legislature are supposed to represent pretty nearly the wishes of the people, and we believe that the officers of the new counties should be appointed mostly by the Governor from those recommended by the Council, and we certainly think that it is with ill taste that Mr. Samuels still hangs to the skirts of the Executive and demands government pay. We trust and hope that the Legislature will show its independence in all things and not allow any lobbyist to inveigle them into passing ill turned laws or resolutions.

Gentlemen, you would not have to jump over anything more formidable than a Gate of medium dimensions to tell who it is that is trying to thwart the wish of thirty-nine thousand Arizonians, to gratify the desires of one thousand cornrovers and blood suckers, who want to take from Arizona's treasure chamber her minerals, free of taxation, and leave us naught but empty caverns.

DEATH OF MRS. COOK.

Mrs. Virginia C. Cook, wife of J. D. Cook, of Willow Creek, died yesterday evening, Sunday, February 13th, 1881, after a painful and lingering illness, arising from cancer in the breast.

Mrs. Cook was a sister to Mrs. L. A. Stevens, one of Yavapai counties best and noblest of women. The deceased was 700 years of age, a native of Grayville, Ill., from whence she removed to Oakland, Cal. Walls Walla, W. T., and thence to this place. She leaves a devoted husband, three dutiful sons and a loving sister here, and numerous relatives in the East, besides a host of friends wherever she was known, to mourn her death, which, though not unexpected, falls with crushing weight, especially upon those most intimately connected with, and dependent upon her good counsel, advice and aid.

Funeral to-morrow, Tuesday, February 15th, at 1 p. m., from the M. E. Church on Marina street.

A CARD.

The letter in the Phoenix Expositor, dated Feb. 5th, 1881, and signed Crucible, is quite generally understood to have been written by W. C. P., which, if a fact, is quite enough to condemn it in the eyes of the people of Prescott. But it might be well enough to mention, for the information of strangers, that should the people of Prescott give a Legislative Ball, Crucible would be conspicuous by his absence, for it would be given in honor of gentlemen that have been tried and not found wanting, consequently they would have no use for the Crucible, more especially one that has been thrown aside long since by the people of Prescott socially and otherwise.
